GDPR and Data Sharing:

Summary Care Record (SCR): This record contains basic information about: Allergies you may have, unexpected reactions to medications and any prescriptions you have recently received. The intention of the SCR is to help clinicians in Emergency Departments and Out of Hours services to give you safe, timely and effective treatment. Clinicians will only be allowed to access your record if they are authorised to do so and, even then, only if you give your express permission. You will be asked if healthcare staff can look at your SCR every time they need to (unless it is an emergency i.e. you are unconscious.)

Please tick **one** of the following options:

- Express consent for medications, allergies and adverse reactions
- Express consent for medications, allergies and adverse reactions **and additional information**
- Express dissent (opt-out)

Clinical System Record Sharing: Due to GDPR, our clinical system, SystemOne (S1), also requires your permission to permit or restrict access to the information entered into your record at each organisation that accesses your record. You can change your consent at any time. Please tick your preferences:
